INTRODUCTION

From time to time, one “discovers” sources of significant historical value which cannot be utilized in an efficient matter. Such is the case with the set of more than 2,000 maps in the office the Wake County Register of Deeds donated by C.L. Mann after his death in 1961. The greatest majority of these maps encompass the City of Raleigh and Wake County from the 1890’s to 1960. There are a surprising number of maps ranging from the mountains to the coast and in neighboring localities.

Below is a photograph that appeared in the 1924 Agromeck (North Carolina State Yearbook) and shows Professor C.L. Mann (about 46 years of age). Behind him is the map cabinet which he donated to Wake County. It contains over 2,000 maps accumulated during this long career.

I would like to thank the office of the Register of Deeds of Wake County for allowing me full access to these records, especially Delia Little and her management.

ACCESS TO MAPS

This document is intended to be used in conjunction with the C.L. Mann maps which can be accessed in two ways:

- 1) The originals are located in the Vault Room of the Wake County Register of Deeds.**

or

- 2) The Register of Deeds has duplicated most of the maps in their on-line website:**

www.wakegov.com/rod

click on "Recording & Real Estate"

click on "Historical Maps"

click on "C.L. Mann & Tax Maps"

(Note: Not all maps have been scanned a some currently are "out of order"; a plan is in place to correct this situation.)

Tips to Utilize the C.L. Mann Real Estate Maps

Numbering: Maps are numbered with a number, decimal and second number. The first number indicates the drawer in which the map is filed. The second number represents the numerical sequence of the map. (The decimal number has NOTHING to do with a decimal based system!!). For example, Map 6.80 is located in the 6th Drawer and is the 80th map in the drawer...between the 79th and the 81st. Map 6.8 is located in the 6th Drawer and is the 8th map in the drawer...between the 7th and the 9th.

Spelling: Check as many alternate spellings as practical. Proper names and street names are equally prone to misinterpretation, mispronunciation and other nuisances of the English language.

Road versus Street versus Drive: The proper base name of a thoroughfare should be “double checked”. Often the same thoroughfare was referred to in the variety of ways. So if you see, Main Drive, Main Street and Main Road.....look carefully at all references to “Main” to cover all your bases.

Duplicate Indexing: For ease of use, some entries (particularly institutions) may be indexed multiple times. For instance, each church, school, cemetery or graveyard has been given this treatment. For example, The First Presbyterian Church, is also listed under “Church”; the River Road Elementary School, is also listed under “School”; Oakwood Cemetery or the Wilson Family Graveyard are both also indexed as “Cemetery”.

Structures: Not all structures are indexed. However most bridges, dams, parks, geological landmarks are indexed.

Carroll Lamb Mann (1877 – 1961)

Carroll Lamb Mann was born on August 30, 1877 in Hyde County, North Carolina in the community of Fairfield.

At the age of 18, he entered A&M College in Raleigh. Four years later, in 1899, he graduated with a degree in Civil Engineering and simultaneously started his employment with the College. In the summer of 1916, he attended graduate courses at Cornell University. After 17 years of being an instructor of civil engineering, he was appointed in 1916 as the head of the Department of Civil Engineering and remained in that position until his retirement in 1948.

In 1919, Mr. Mann undertook an effort in which he would be involved the rest of his career....that of chairman of a group to building a monument on the N.C. State campus to honor the 33 college alumni who died in World War I. His efforts resulted in the Memorial Tower (“the Bell Tower”), which rises 122 feet above Hillsboro Street. At the time of his retirement in 1948, the tower had been completed, except for the addition of a Shrine Room. Mr. Mann was quoted as saying “My greatest experience has been the work I have done on that tower.”

Early in his professional life he spent a brief time in Nicaragua as a member of the Second Isthmian Canal project to determine whether Panama or Nicaragua was the best location for a canal connecting the Pacific and Atlantic Oceans. He also served as an assistant engineer for the Seaboard Air Line Railway.

During the course of his career, he was affiliated with a variety of organizations, among them including Phi Kappa Phi, Tau Beta Pi, the North Carolina Society of Engineers, and the Raleigh Rotary Club. Among the many honors and awards given to him include a Life Membership from the American Society of Civil Engineers, being secretary of the North Carolina Board of Registration for Engineers and Land Surveyors and having two structures named in his honor on the N.C. State campus.

In 1946, a four story civil engineering hall was named in Mann’s honor. The building contained offices, classrooms, a library, drafting rooms and study rooms. This building was incorporated into Daniels Hall in 1956. In 1964, the current Mann Hall was erected and the new structure was named in honor of Professor Mann.

Professor Mann died on May 17, 1961 in Rex Hospital after a two week illness. He was a member of the Church of the Good Shepherd (Episcopal) and was buried in Historic Oakwood Cemetery next to his wife, Yanita Cribbs Mann (1882-1951, married 1903).

Map Cabinet and Arrangement of Drawers

After C.L. Mann's death in 1961, his maps were donated to Wake County by his family. In addition to the maps, he donated an oak mapping cabinet. The oak cabinet is located in the current Vault Room of the Register of Deeds offices at the Wake County Courthouse. The cabinet is composed of 3 stacked units, each with six drawers...a total of 18 drawers. Each unit is 18 ½ inches high, 26 inches deep and 41 inches wide. There is a 6 inch base and a 4 inch top cornice. Each drawer is 24 1.2 inches deep, has a height of 1 ¾ inch and is 38 ¾ inches wide

The maps were separated by Mr. Mann into geographical areas. It is not obvious exactly which geographical areas are represented. The first twelve drawers were intended to contain maps of the City of Raleigh, the next 3 drawers (marked with a "C") to contain maps of locations outside the City, but still in Wake County, the next 2 drawers (marked with an "S") maps of locations outside Wake County. The last drawer is for "Miscellaneous" and contains teaching aids and drafts.

Drawer 1 – Contains three significant documents, in addition to maps. Two of the documents were done by William H. Freeman in September, 1985. They are indexes to A.B. Markham's Map of Land Grants. One of the documents (16 pages) is focused solely on Wake County. The other land grant index is focused on present day Orange County, Durham County and Upper Chatham County (22 pages). The third document was compiled by C.L. Mann in 1935 as a response to a request from the college's (A&M) president to know the real estate owned by the college. It details each parcel that made up the NCSU campus as of 1935.
